

Sphereon Wallet Onboarding

Sphereon Wallet

Getting Started

Getting started

We'll guide you through the steps to create a wallet.

The 1st step is to create the wallet by providing some information about yourself.

Step 1: Creating the Wallet

Sphereon Wallet

Create Wallet

9:41

Create Wallet 1/3

Enter your name

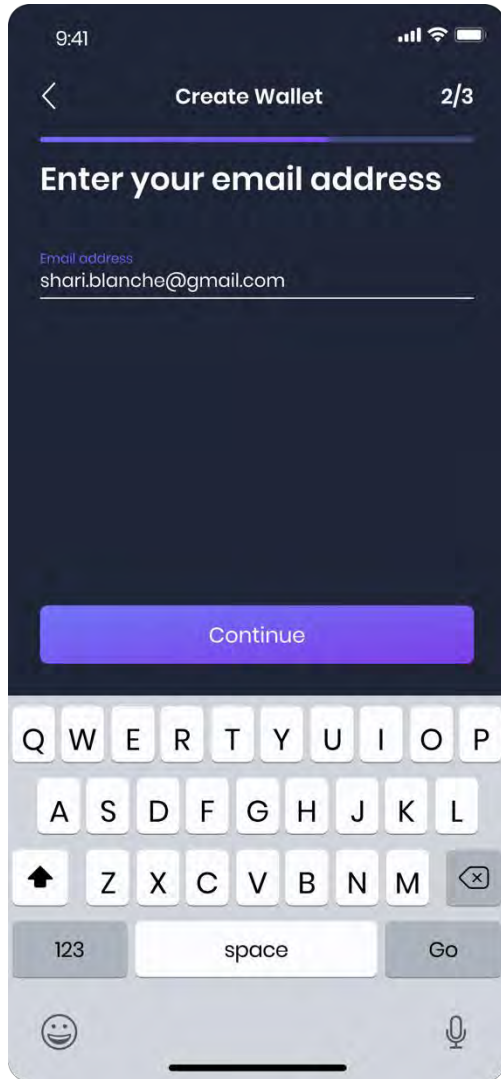

Name
Shari

Continue

Q W E R T Y U I O P
A S D F G H J K L
↑ Z X C V B N M ↵
123 space Go
☺ 🎤

Tell us your name.

Create Wallet

9:41

Create Wallet 2/3

Enter your email address

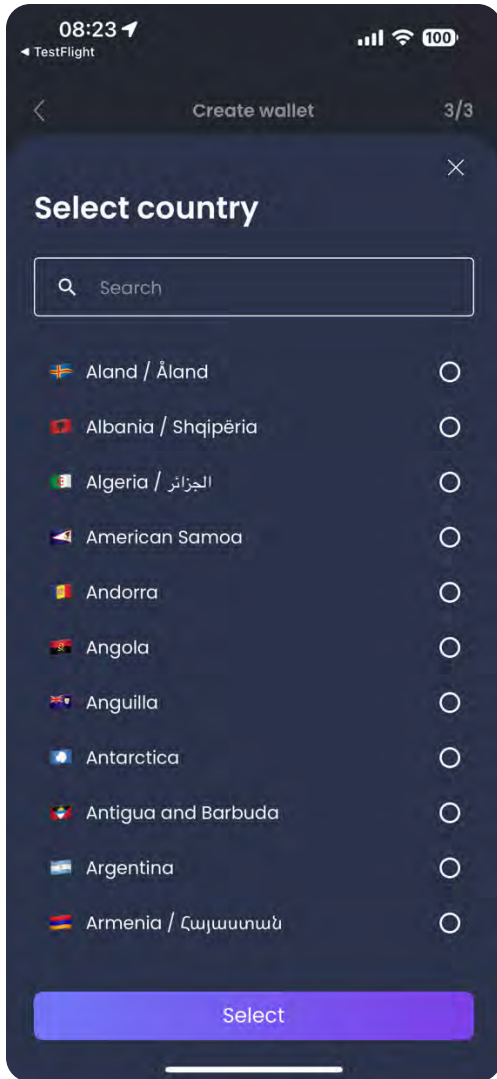

Email address
shari.blanche@gmail.com

Continue

Q W E R T Y U I O P
A S D F G H J K L
↑ Z X C V B N M ↵
123 space Go
☺ 🎤

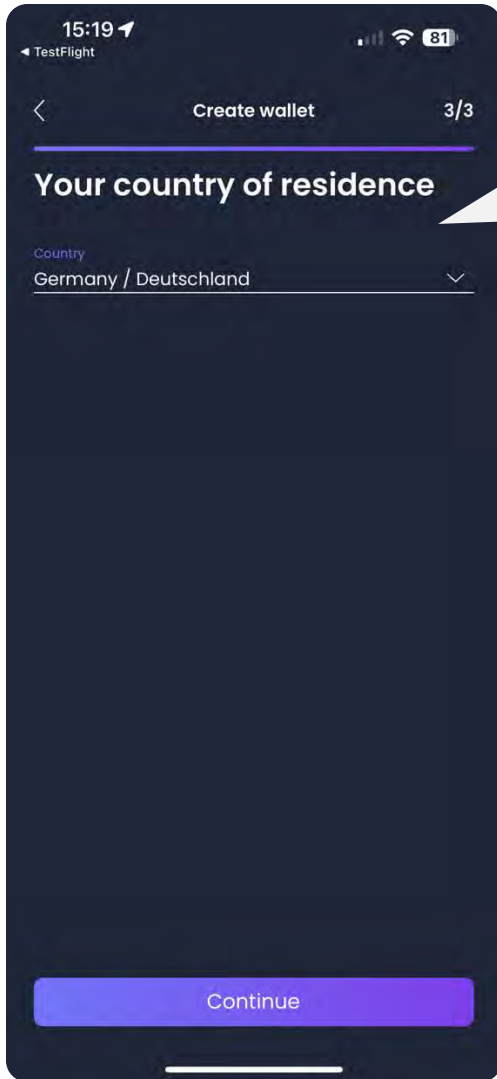

And your e-mail address.

Create Wallet

Next, tell us in which country you live.

Create Wallet

The screenshot shows a mobile app interface for creating a wallet. At the top, the status bar displays the time 15:19, signal strength, Wi-Fi, and 81% battery. The app header includes a back arrow, the text 'Create wallet', and a progress indicator '3/3'. Below the header, the title 'Your country of residence' is displayed. Underneath, there is a label 'Country' and a dropdown menu showing 'Germany / Deutschland' with a downward arrow. At the bottom of the screen, there is a prominent blue 'Continue' button.

Next, tell us in which country you live.

Select your country from the list.

Step 2: Securing your Wallet

Sphereon Wallet

Secure your Wallet

It is important to secure your Wallet so that only you have access to your information.

Secure your Wallet

9:41

Secure Wallet 1/4

Set a 6-digit Sphereon PIN

Your PIN should not contain:

- 6 similar digits
- A consecutive sequence
(Like: 1-2-3-4-5-6 or 8-7-6-5-4-3)

Set your PIN

1	2 ABC	3 DEF
4 GHI	5 JKL	6 MNO
7 PQRS	8 TUV	9 WXYZ
	0	⌫

Enter a number that you can easily remember.

Secure your Wallet

9:41

Secure Wallet 1/4

Set a 6-digit Spheron PIN

1 2 3 4 5 6

Your PIN should not contain:

- 6 similar digits
- A consecutive sequence
(Like: 1-2-3-4-5-6 or 8-7-6-5-4-3)

Set your PIN

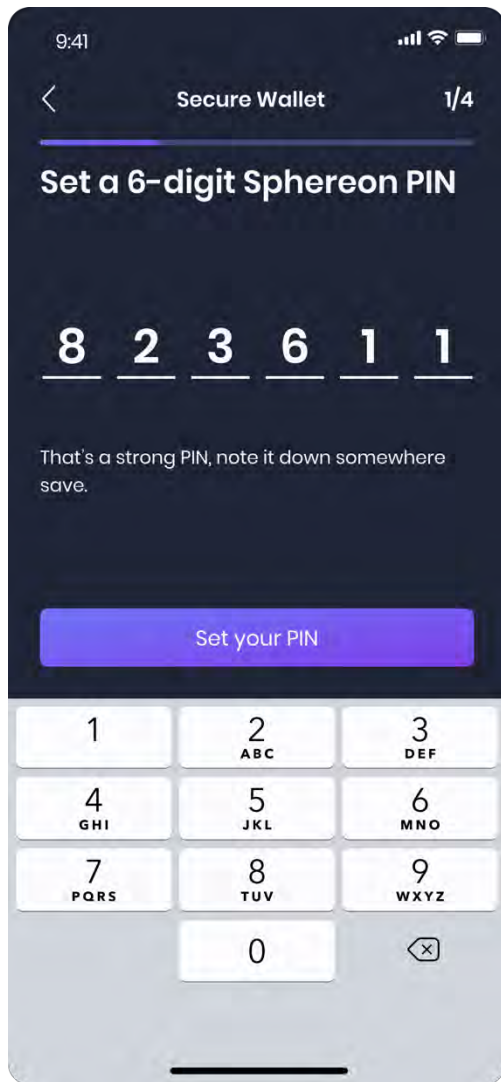

1	2 ABC	3 DEF
4 GHI	5 JKL	6 MNO
7 PQRS	8 TUV	9 WXYZ
	0	⌫

Enter a number that you can easily remember.

But not too easy, like 6x the same number.

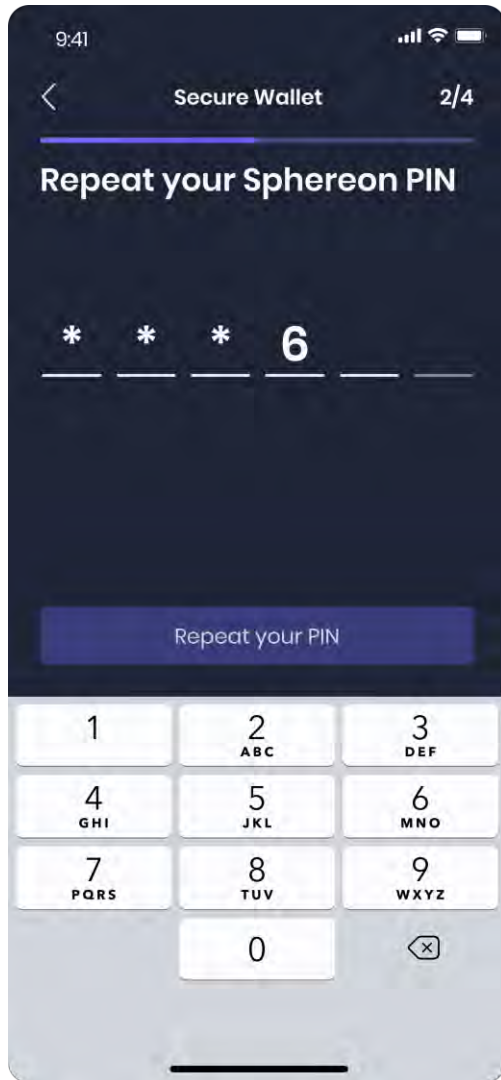

Or 6 numbers in a row.

Secure your Wallet

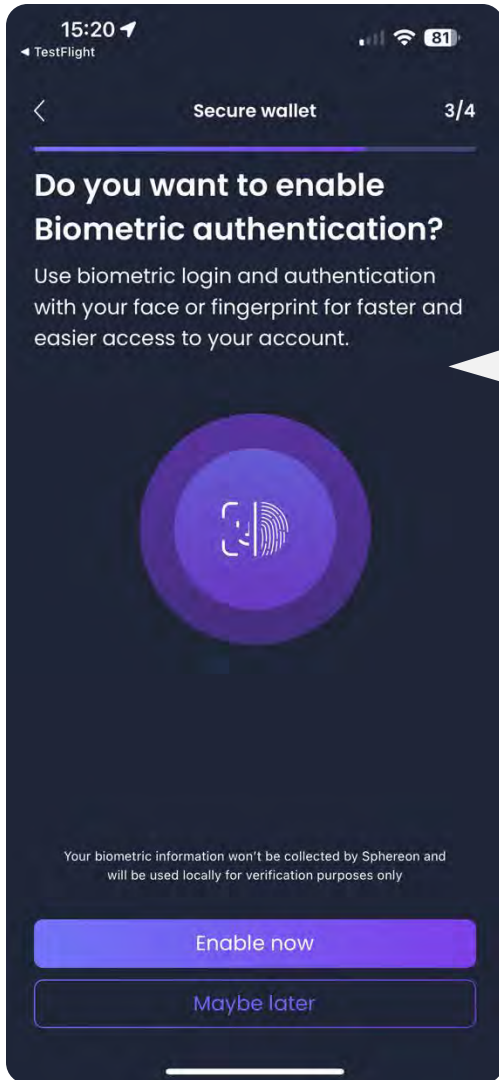

Save your PIN-number somewhere safe if you are afraid you might forget it.

Secure your Wallet

Repeat your PIN-number to check if you did not make a mistake.

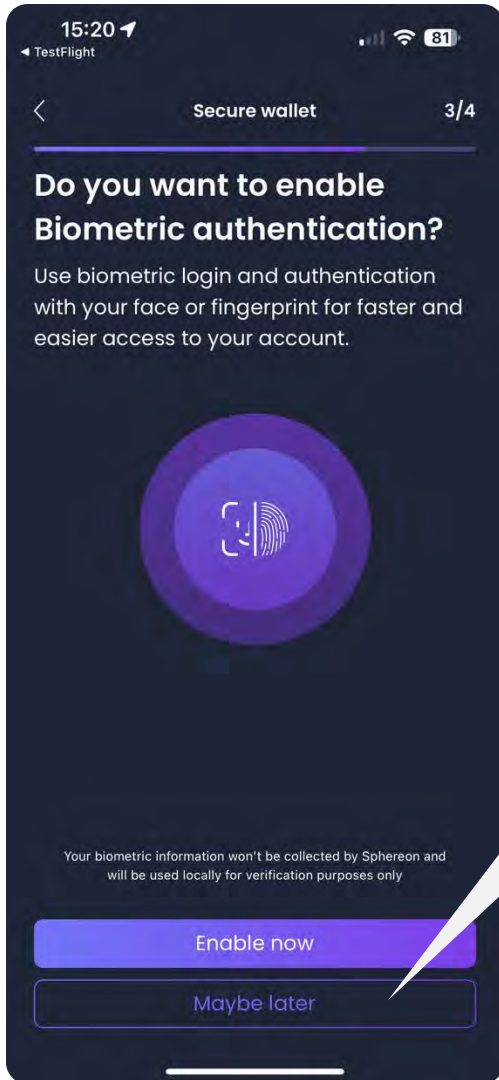

Secure your Wallet

You can enable the biometrics of your phone to get access.

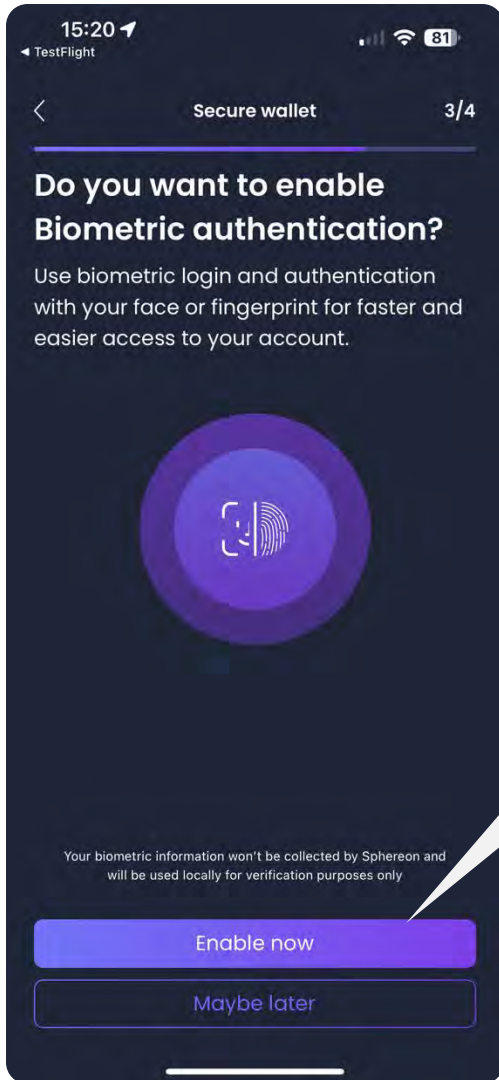

It is an option that will make you login *faster* and *easier*.

Secure your Wallet

But you can skip this if by pressing the [Maybe Later] button.

Secure your Wallet

You can enable this by pressing the [Enable Now] button.

Secure your Wallet

The next step is to accept our Terms and Privacy policy.

Secure your Wallet

If you want, you can read the full text of the Terms & conditions and the Privacy policy by pressing the links at the bottom of the page.

Secure your Wallet

Press the [Accept Terms & Privacy] button to accept.

Import personal information

Sphereon Wallet

Import personal information

You can use your German eID card (Ausweis eID) to request a Digital Identity with your personal information from the Bundesdruckerei.

Import personal information

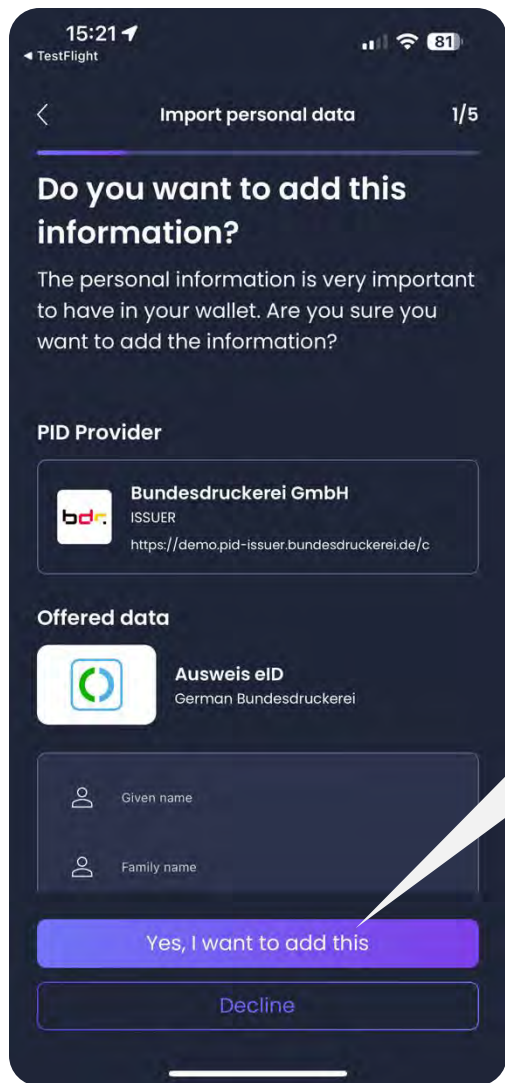

Press [Next] to start the issuing process.

Import personal information

You can also skip this step and perform this later via the wallet Credential catalog function.

Import personal information

Press [Yes] to start.

Or [Decline] and do this later via the wallet Credential catalog function.

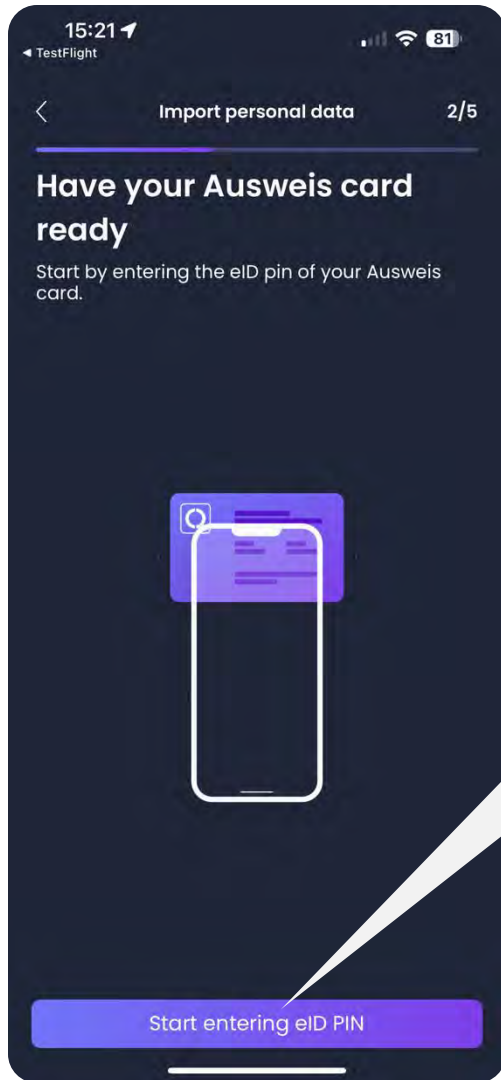

Import personal information

Make sure you have your Ausweis card ready.

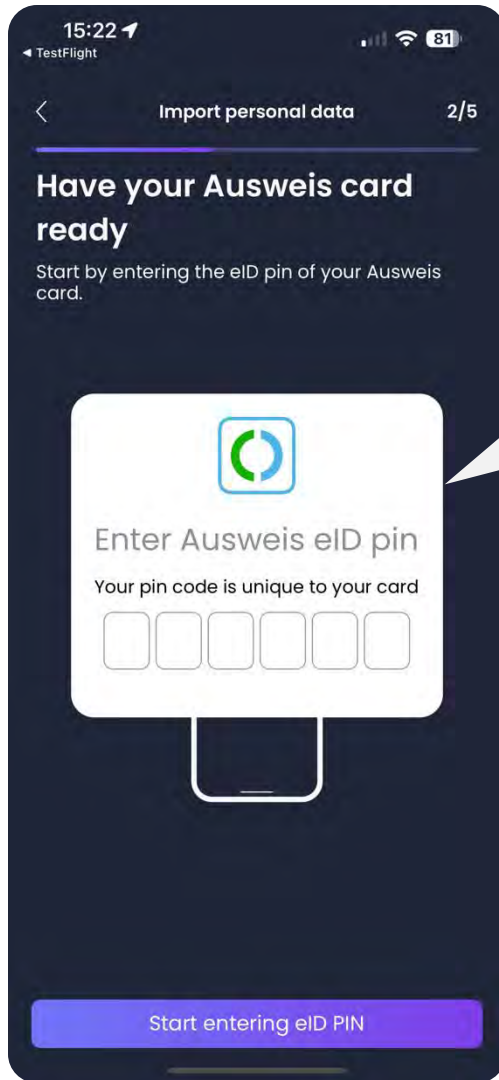

You also need to enter your Ausweis eID-card PIN code to prove you are in control of it.

Import personal information

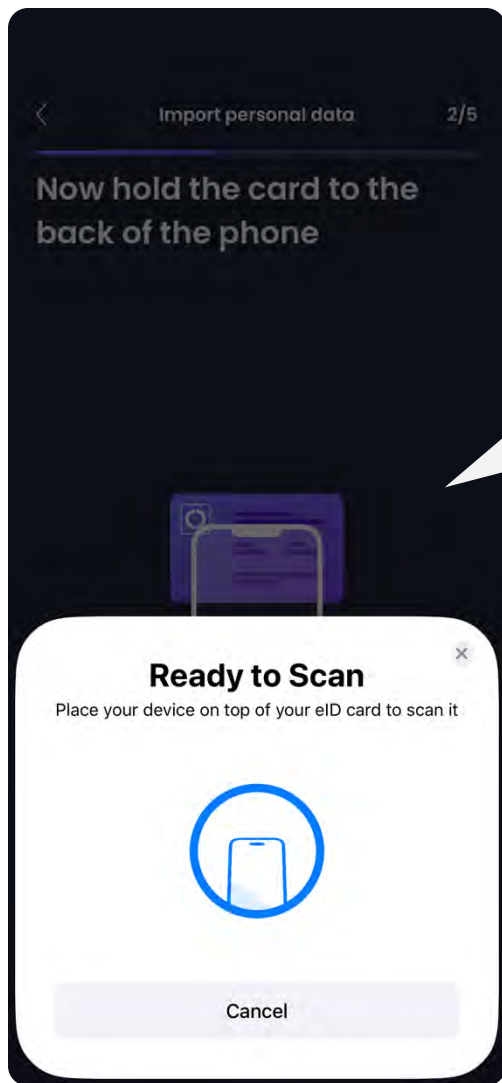

Press [Start]

Import personal information

Enter your Ausweis eID PIN.

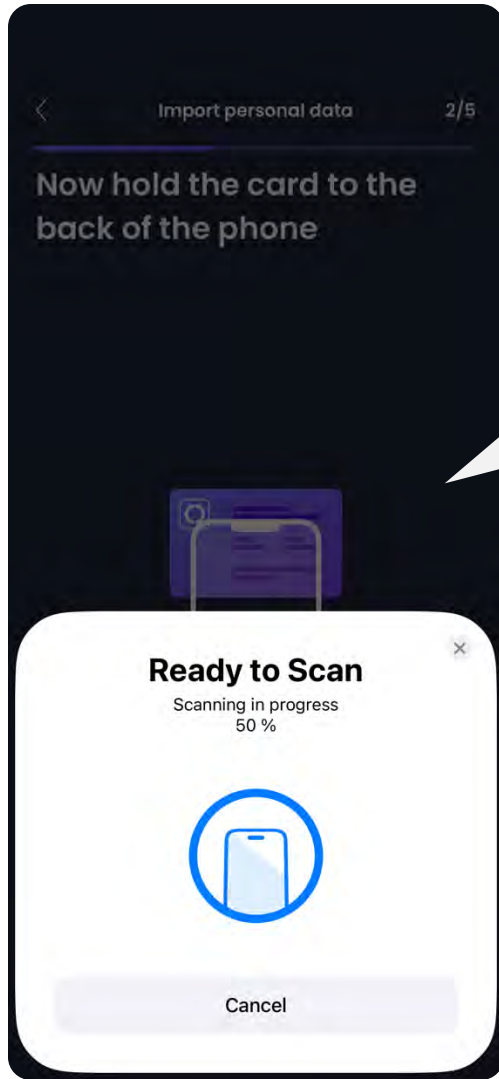

Import personal information

Place your device *on top* of your eID card for the wallet to read the chip. *On the back* of the device.

Hold still. This is a bit tricky.

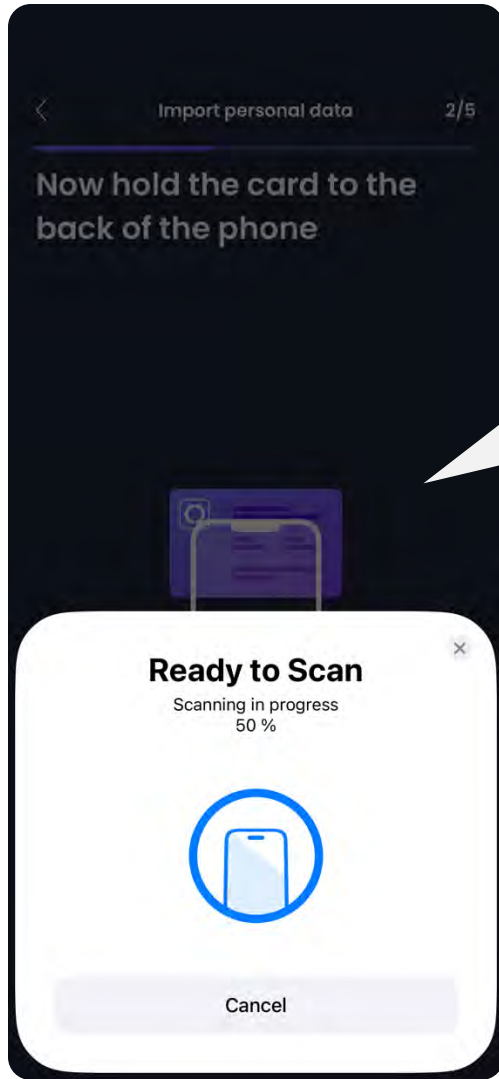

Import personal information

Scanning will take several seconds.

Hold still.

Import personal information

If scanning fails, try again.

Tip:

- Android devices want the card in the middle.
- Iphone want the card at the top.

Import personal information

15:23
TestFlight

Import personal data 5/5

Your information is imported. Is it all correct?

Given name	ERIKA
Family name	MUSTERMANN
Birth family name	GABLER
Birth year	1984
Age	40
Date of birth	1984-01-26
Place of birth	BERLIN
Nationalities	DE

Yes, that's me

Not everything is correct

If not all of the information is correct, press the [Not everything is correct] button.

This stops the process.

You should contact your local Bürgeramt (citizen's office) or the issuing municipal office to have the information corrected.

Import personal information

If everything is correct, press the [Yes, that's me] button.

All done!

The Wallet is created. You can start using it.

Press [Start exploring my Wallet] to take a look.

Next: Using the Sphereon Wallet
